

Christmas Cheer Youth Volunteer Criteria

The Christmas Cheer Committee recognizes the value of youth volunteers committing their time and youthful enthusiasm to this annual community event. However, the following criteria will be used when approving student volunteers:

The Student:

- Is enrolled and attending in person in a secondary school, and taking a minimum of two courses per semester or in an approved secondary home school program with the same criteria as above (proof of enrollment is required from school principal).
- Works at Christmas Cheer outside of regular school hours so that they can use the volunteer hours towards the requirements necessary for a secondary school graduation diploma.
- Has parental approval.
- Has school approval (guidance department).
- Is an independent worker with the ability to follow directions.

All students who are interested will be considered and approval to volunteer is subject to approval from the Volunteer Coordinator or Chair.

Each student will need to submit their intent to volunteer on a year-to-year basis. At any time, a student volunteer can be removed from their volunteer position should they no longer demonstrate they are capable of performing the duties of a volunteer.
